

# Thunderbolt

**Colour:** Black

**IAR:** 73107

**Date of Birth:** 31/12/2003

This male, like Gladiator, is a down from the Julius / Dorchester lines. He is very dense and crimped and is now tending to roan. His dam is an exceptional black Brutus female who was part of our embryo transfer program for years. As an older breeding female she still exhibits crimp in her fleece. Thunderbolt has an excellent phenotype and is a good choice for finer fleeced and finer framed females. He may be worth a go if you are looking to breed roans or greys. We rate Thunderbolt very highly, however, being the same age and colour as Gladiator and Black Thunder, he has tended to be in their “shadow” in the show ring. His progeny definitely warrant his consideration for breeding.

## ***Pedigree:***

— [SURICAYA SIR SYDNEY Foundation Animal \(Imp. Chile\) Solid Medium Fawn](#)  
— [COONAWARRA JULIUS Solid Black](#)  
— [COONAWARRA JULIA Foundation Animal \(Imp. Chile\) Black/White](#)  
— Sire: [COONAWARRA DORCHESTER Solid Black](#)
