

STUD SERVICE POLICY

This is our Stud Service policy. We hope it provides you with all the information you need, however we invite you to contact us with any queries or comments.

Yaringa Alpacas has an extensive list of males available for outside services and the following policies apply to all these males. The advertised prices are for “drive-by” matings – mobile matings will attract an additional charge. 10% discount applies for the purchase of 3 or 4 services. 15% discount applies for the purchase of 5 or more services. Packages of 10 or more by negotiation.

Driveby Matings – you bring your female to us

- When booking please specify whether your female is on Q-Alpaca or not as we have both Q and non-Q yards for matings.

Mobile Matings – we bring the male to you

- Travel fee to be negotiated depending on distance.
- Females must be penned ready for mating at the appointed time.

Agistment

- Short term agistment is available by negotiation.
- A short term agistment agreement must be signed.

Management

- Clients are requested to spit their females off on a regular basis and to notify Yaringa immediately if the pregnancy has failed.
- Clients are requested to ensure their females are relatively free of fleece around the mating area. Females with 6 months fleece or less should be fine. If they are not, we will crutch them with hand shears to ensure a safe mating.

Live Cria Guarantee

- All services have a “live cria” guarantee to 48 hours.
- If there is a problem with any cria born Yaringa must be notified immediately.
- In some circumstances, if a cria dies after 48 hours a remate may be given, however an autopsy report may be requested so immediate communication is essential.
- If the same male is not available for a remate, Yaringa will substitute a similar value service to another male by negotiation.

Payment

- 50% deposit is required at the time of mating. The balance must be paid at 90 days gestation.
- A4 forms will be lodged on line once the cria is born. Please advise Yaringa once your cria is born to ensure your A4 is lodged promptly.

Failure to conceive

- If a female fails to become pregnant in three matings
 - (a) the purchaser may continue with this combination, or
 - (b) the service deposit paid may be transferred to another female owned by the same stud, or
 - (c) the service deposit may be transferred to another male from the Yaringa list to mate the original female.

- In the case of a maiden failing to become pregnant after a minimum of six matings to a minimum of two males, the deposit may be refunded on the production of a veterinary certificate confirming infertility. Regrettably we are unable to refund travel fees for mobile matings.

Please contact me for any clarification on this policy or the terms and conditions.
